Artists' Materials EXPO: Creative Expression 2009

"An assembly of artists' materials manufacturers, artists, art professionals, and the creative public..."

Held at the Santa Fe Community Convention Center in mid-September, the EXPO brought together great artists, a selection of world-class art and over 55 workshops, lectures and demos.

Justine and Karen Holloway attended workshops at the EXPO and Justine experimented with *encaustic* painting on Ampersand's Claybord. Encaustic is a combination of pigment mixed on a hot-plate with bee's wax and the hot mixture is 'painted' on the board. Each layer is 'sealed' with a heat gun. Justine discovered new possibilities for texture combining encaustic with oil sticks.

Encaustic: amazing possibilities

Railyard Park, Santa Fe

Justine and Karen visited exciting new contemporary galleries at **The Railyard**, a revitalized historic area in Santa Fe. The city has converted part of the track area into a beautiful park.
